

Be the best that we can be.

EBJ Knowledge Organiser Computing Year 3

Summer 1
Creating media
– video trailers

Learning objectives

In this unit children will explore how to create a book trailer. They will learn the purpose of a trailer, create a storyboard, consider camera angles, import videos and photos into editing software, add text and transitions, and evaluate their own and others' trailers.

- Describe the purpose of a trailer.
- Create a storyboard for a book trailer.
- Consider camera angles when taking photos or videos.
- Import videos and photos into film editing software.
- Add text to a video.
- Incorporate transitions between images.
- Evaluate their own and others' trailers.

Key facts

Transitions are visual effects that can be applied to occur in-between digital media (slides, images or video clips).

Morph

The media appears from a selected corner.

Cross zoom

The media zooms and fades in from the middle.

Peel off

The page peels off to reveal the media.

Dip to black

The media fades to a black screen.

Directional wipe

The media appears from a selected side.

Read all about it! Can you find these books in your local library?

Key Vocabulary

Application, desktop, digital device, edit, film, film editing, graphics, import, key events, laptop, plan, recording, sound effects, time code, video, voiceover.

Did you know?

Digital sound waves can be viewed and edited on a computer. They look like this:
