

Be the best that we can be.

# EBJ Knowledge Organiser Computing Year 4

Spring 1  
Creating media -  
Website design

## Building a website

## Designing a website

When designing a website you need to remember:

- Keep it simple and intuitive.
- Use bright, engaging visuals.
- Choose simple typography.
- Incorporate interactive elements.
- Make it mobile-friendly.
- Add engaging content

Use a mascot or character to guide your audience through your website.

## Key Vocabulary

Collaboration	Working with others to achieve a specific goal
Content	All information and media contained in something, for example a webpage.
Embed	Media files (video, music) which can be stored and viewed within a web page.
Header	Text at the top of a page.
Hyperlink	A link commonly used in a web page or document, to direct you to another website or file.
Insert (file)	To place a file into a web page or a piece of software
Tab	A way of opening and organising multiple websites in a single window or an internet browser.
Web page	A hypertext page that can be viewed through an internet browser
WWW	The acronym used to express the 'World Wide Web'. It is found at the beginning of website addresses.
