

**Be the best that we can be.**

## EBJ Knowledge Organiser Geography Year 6

### Autumn

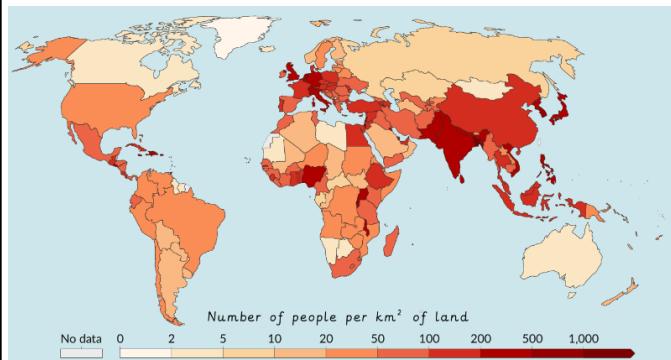

Why does population change?

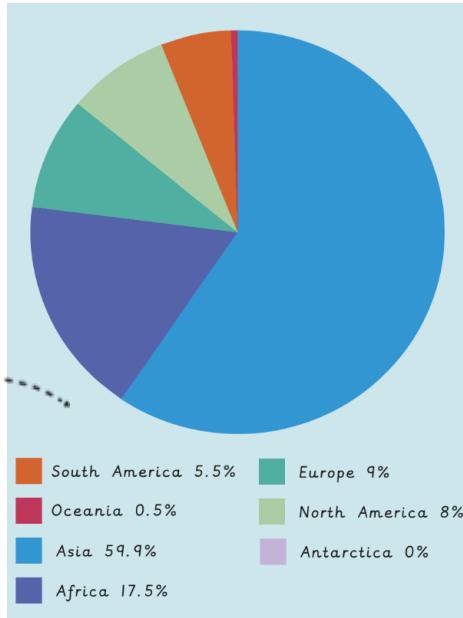

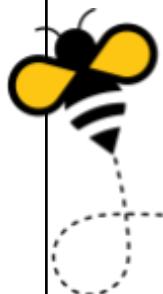

### Curriculum Overview

This unit focuses on: understanding of population, climate, and key geographical skills. Pupils learn to identify patterns of population density, describe global population growth, and explain the factors that influence where people live. They explore birth and death rates, migration, and the reasons people may be forced to leave their homes. They also investigate the causes and impacts of climate change and consider actions they can take to help reduce its effects. In developing their geographical skills, pupils calculate route lengths using scale, follow routes on OS maps, use a range of data collection methods, including Likert scales and public surveys, and create digital maps to compare data from different locations. They use this information to suggest ways to improve the environment.

### Map showing population density

### Global Population Distribution

#### Reasons for population growth:

- Increase birth rate
- Decrease in death rate
- Increase in immigration
- Consistent access to food
- A stable job and income

#### birth rate

The average number of babies born per 1000 people every year.

#### death rate

The average number of people dying per 1000 people every year.

#### Reasons for population decline:

- Decrease in birth rate
- Increase in death rate
- Increase in emigration
- Little or no access to clean water
- Little or no access to hospitals and medicine
- War and conflict
- Natural disasters
- Spread of disease

### Push and pull factors

### Key Vocabulary

#### Push factors

- To escape conflict or war.
- To escape natural disasters.
- Poverty (little money).
- Little access to healthcare.
- Few jobs.
- High crime rate.
- Little food, crop failure.
- Harsh climate.
- Little or no access to education.
- Unhappy.

#### Pull factors

- To find a good job.
- To be closer to family and friends.
- Good access to healthcare.
- Safety (lack of war).
- Low crime rate.
- Access to good education.
- Pleasant climate and landscape.
- To find a better quality of life.
- Respect for different cultures, religions and beliefs.

#### population -

The number of people living in a particular place.

#### densely populated -

An area that contains many people relative to its size.

#### sparsely populated -

An area that has few people relative to its size.

#### migration

The act of people moving from one place to another.

#### pull factors

Positive factors that pull people towards a place.
